Keck Graduate Institute (KGI)
A Member of The Claremont Colleges

About KGI
In 1997, Founding President Henry E. Riggs conceived the idea of KGI, and through a generous $50 million grant from the W.M. Keck Foundation, KGI was born as a member of The Claremont Colleges. Since 2003, under the leadership of President Sheldon Schuster, KGI continues to grow both in terms of its number of enrolled students and in its reputation for excellence.

KGI offers innovative postgraduate degrees and certificates that integrate life and health sciences, business, engineering, pharmacy, and genetics. With a focus on team projects and hands-on industry experiences, KGI provides pathways for students to become leaders within healthcare and the applied life sciences.

KGI consists of four schools: Henry E. Riggs School of Applied Life Sciences, School of Medicine, School of Pharmacy and Health Sciences, and the Minerva Schools at KGI.

The Claremont Colleges

The Claremont Colleges is a consortium of five undergraduate liberal arts colleges and two graduate institutions reminiscent of the Oxford-Cambridge model. The undergraduate colleges include Pomona College, Scripps College, Claremont McKenna College, Harvey Mudd College, and Pitzer College. The two graduate institutions include Claremont Graduate University and KGI. Each has its own campus, its own students and faculty, and its own distinctive mission. The seven independent institutions, located on more than 560 acres of land, offer rigorous curricula, small classes, distinguished professors, and personalized instruction in a vibrant residential college community that provides intensive interaction between students and faculty.

Accreditations

KGI's degree programs are regionally accredited by the Western Association of Schools and Colleges (WASC). The Doctor of Pharmacy degree is accredited by the Accreditation Council for Pharmacy Education. The Master of Science in Human Genetics and Genetic Counseling degree is accredited by the Accreditation Council for Genetic Counseling.
